📍 Toulouse, France

in linkedin.com/in/karim-el-askary-252211448/

Technical Skills

Programming Languages

C, Python, SQL, Ada, JavaScript, HTML, CSS

Tools & Environment

Linux, macOS, Git, SSH

Core Competencies

Algorithms, Data Structures, Problem Solving, Mathematical Modeling

Languages

Arabic	Native
French	Bilingual (C2)
English	Fluent (C1/C2)
German	Intermediate (B1)

Interests & Hobbies

Sports: Avid basketball player; formerly played competitive tennis.
Creative: Passionate about drawing, illustration, and music production (beatmaking/instrumentals).

Karim EL ASKARY

ENGINEERING STUDENT IN COMPUTER SCIENCE & AI

Highly motivated 1st-year engineering student at ENSEEIHT, equipped with a rigorous analytical background from the LYMED excellence preparatory program. Deeply passionate about Artificial Intelligence and Machine Learning, I am currently seeking an internship to apply my algorithmic skills, contribute to innovative software solutions, and deepen my technical expertise in the tech industry.

Education

Diplôme d'Ingénieur (MSc Equivalent) - Digital Sciences

Sept 2026 – Present

INP-ENSEEIHT | Toulouse, France

- Specializing in Computer Science, Software Engineering, and Applied Mathematics.
- Relevant coursework: Algorithmic logic, procedural programming (Ada), computer architecture, and systems engineering.

Classes Préparatoires aux Grandes Écoles (CPGE)

Sept 2024 – June 2026

LYMED (Lycée Méditerranéen) | Tetouan, Morocco

- Selected for an intensive, highly competitive national excellence program.
- Acquired advanced problem-solving skills and a strong theoretical foundation in high-level Mathematics, Physics, and Computer Science.

Experience

Private Tutor (Mathematics & Physics)

Sept 2026 – Present

Freelance | Toulouse, France & Remote

- Provide tailored academic support to middle and high school students.
- Develop customized lesson plans to improve problem-solving skills and exam readiness.

Projects & Coursework

CS50: Introduction to Computer Science

Completed

Harvard University (Online Curriculum)

- Completed comprehensive coursework focusing on the fundamentals of computer science and software development.
- Developed algorithms for sorting, searching, and memory management using **C** and **Python**.
- Built foundational web development projects utilizing **HTML, CSS, JavaScript**, and **SQL** for database management.
- Currently preparing to pursue the *CS50AI (Introduction to Artificial Intelligence with Python)* specialization to further explore ML algorithms and graph searches.

Academic Algorithmic Projects

2026

ENSEEIHT

- Designed and implemented algorithmic logic games (e.g., guessing algorithms) in **Ada**, focusing on optimization and robust code architecture.
- Developed statistical sampling modules applying mathematical concepts directly to programmable software environments.
